

Beautifully fragrant passion fruit, hints of ripe lemon with an elegant lingering citrus zest."

Michael Ivicevich, Chief Winemaker

The philosophy of Oyster Bay is to produce fine, distinctly regional wines that are elegant and assertive with glorious fruit flavours. It all starts in the vineyard. We treat each vineyard block and parcel of wine individually. The fruit is crushed, gently pressed and the juice is cold settled. A long, slow temperature controlled fermentation and immediate bottling after

winemaking, retains all the wonderful fruit flavours and aromas that are present. Pale straw green in colour with brilliant clarity, Oyster Bay Marlborough Sauvignon Blanc is zesty and aromatic with lots of lively fruit characters. A concentration of assertive passionfruit and tropical fruit flavours with an abundant bouquet, it is a wine that is always crisp, elegant and refreshing.

Oyster Bay Sauvignon Blanc 2015

Marlborough Growing Season 2015

December had a cool start which was sustained by a southerly flow and reduced temperatures throughout the month. These cool conditions over the early stages of flowering, moderated shoot growth and fruit set. By January, Marlborough was enjoying a warm and dry summer. This created an exceptional environment for veraison and flavour development in the fruit. Settled weather conditions, clear skies and abundant sunshine created warm growing conditions above the long-term average. Dry weather conditions prevailed. Vine health was sustained through irrigation with welcome rainfall arriving in early March. Warm conditions over the summer months allowed the lower yielding fruit to progressively develop exceptional flavour. One of Marlborough's great seasons, with fruit showing brilliance in flavour and aromatics, with excellent balance.

Soil Type

Prime central Wairau, Renwick and Brancott soils. Shallow sandy loams over deep layers of free draining river gravels, providing moderate fertility and low vigour.

Clonal / Rootstock Selection

An emphasis on Bordeaux and UCD1 clones for pure, instantly recognisable varietal intensity and flavour. Medium-to-low vigour rootstock selection matched for suitability to clone and soil vigour.

Winemaking Techniques

Throughout harvest, fruit was selected from progressively later ripening vineyard blocks, commencing with the stonier free-draining sites. Upon receipt to the winery, the grapes were destemmed and transferred to the tank presses where the free-run juice was separated and the remaining fruit lightly pressed. The juice was then clarified to a clear state, racked into stainless steel fermentation tanks and then inoculated with a select range of yeasts for added complexity and aromaticity. A slow, temperature controlled fermentation at 12-14°C (54-59°F) was undertaken. After a short period of yeast lees contact, the wine was racked for final blending and bottled young to ensure that the fresh, crisp and elegant varietal characters were retained.

GROWING SEASON CLIMATE DATA (October - April)

	2015 Growing Season		Long-Term Average	
MEAN MAXIMUM:	22.1°C	72°F	21.2°C	70°F
MEAN MINIMUM:	8.6°C	47°F	9°C	48°F
GDD:	1326°C	2420°F	1266°C	2311°F
RAINFALL:	340mm	13.4in	544mm	21.4in

VINEYARD LOCATIONS:	Wairau Valley and Awatere Valley
VINE AGE:	3 – 21 years
PRUNING REGIME:	Cane pruned, Scott Henry and Vertical Shoot Positioning
HARVEST DATE:	18 March to 13 April 2015

MATURITY ANALYSIS AT HARVEST (weighted average)

BRIX:	21.6°
TITRATABLE ACIDITY:	10.5g/L
pH:	3.28

WINE ANALYSIS

ALCOHOL:	13% v/v
RESIDUAL SUGAR:	3g/L
TITRATABLE ACIDITY:	7g/L
pH:	3.3
